13 March 1958

MEMORANDUM FOR: Director of Training

SUBJECT : Intelligence School Weekly Report #10  
7 March through 13 March 1958

1. Planning by the Intelligence Orientation and Intelligence Production Faculties is going ahead for the integrated once-yearly JOT training cycle. Fifteen weeks still seems to be the right length for the IS phase, with three weeks of orientation and twelve weeks for a combined Intelligence Techniques and skills course, presented simultaneously to three sections of students. The size of the JOT group is a critical factor in planning. A group of thirty could be scheduled quite differently from a group of fifty. We are assuming the latter.

2. C/IS and C/Mgt. Training have been asked to confer Thursday with the AD/CR concerning a possible OCR Management Conference [redacted] On the basis of present information about OCR's situation our recommendation will be to defer the program for OCR by 6-12 months or longer.

3. Arrangements have been set up to transfer [redacted] to Management Training; the job has been defined, the shift has been agreed to by Management Training [redacted] and details have been cleared with PO/TR. However, there are indications that OCR may ask for additional help, possibly an additional slot for procurement and distribution, after [redacted] returns from TDY overseas the week of 17 March. After consultation with [redacted] it was agreed to hold up action for one more week, to be sure that the present arrangement with OCR is not about to change in a way that would require another shift in [redacted] assignment.

Document No. 057 26

NO CHANGE in Class. ☐

☐ DECLASSIFIED

Class. CHANGED TO: TS S C

DDA Memo, 4 Apr 77
